3

2:00

WEEKLY ACCOUNTABILITY

Three questions, every week

1

User interactions?

What did you learn?

2

New revenue?

Why did they pay?

3

Shipped?

Why does it matter?

🦄 **Report target vs. actual in small groups**

CHAPTER 1 OF 9

Recap from last time

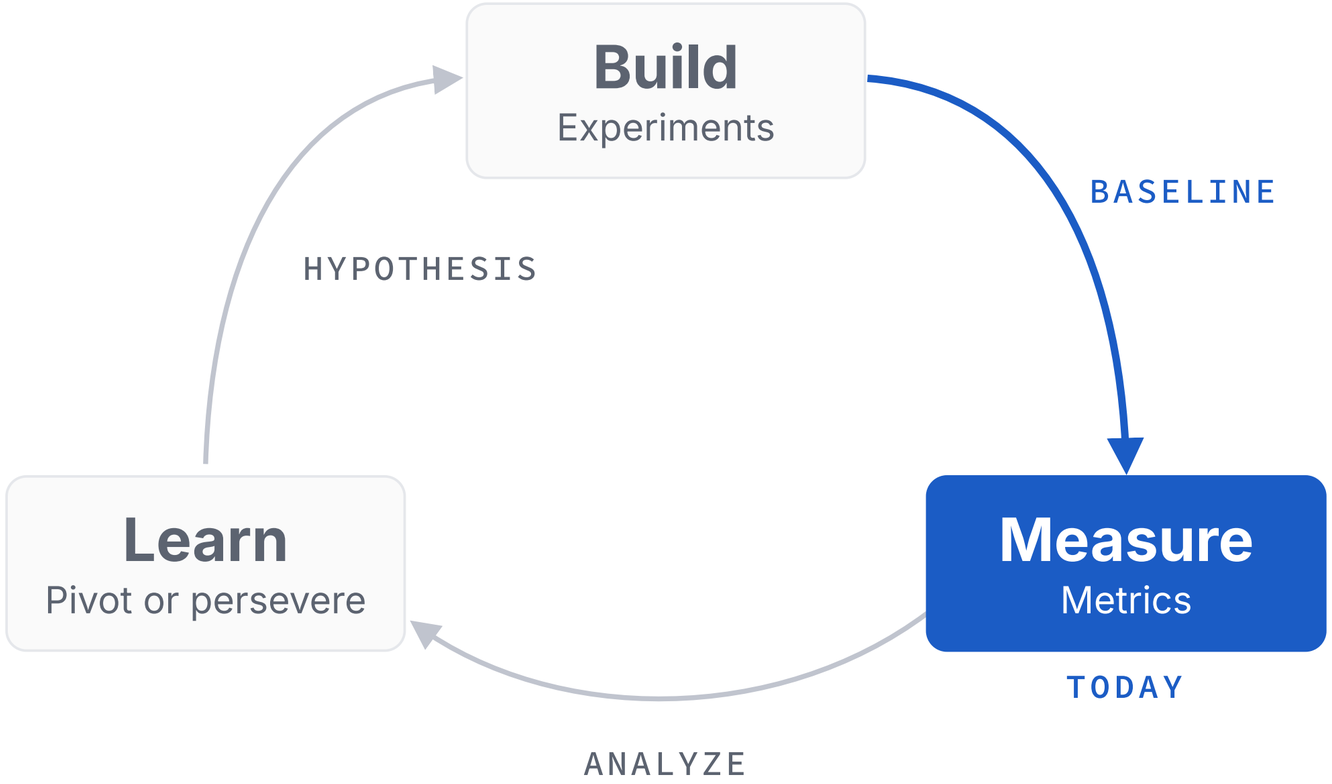

Last week you heard who hurts, this week you count who acts.

01 **Recap from last time**
02 Your presentations
03 The hierarchy of evidence
04 Lines before data
05 Landing pages
06 Traffic and conversion
07 Wrap-up and check-out
08 Workshop: launch a page that tests your problem
09 Case discussion

ANCHOR · BUILD-MEASURE-LEARN

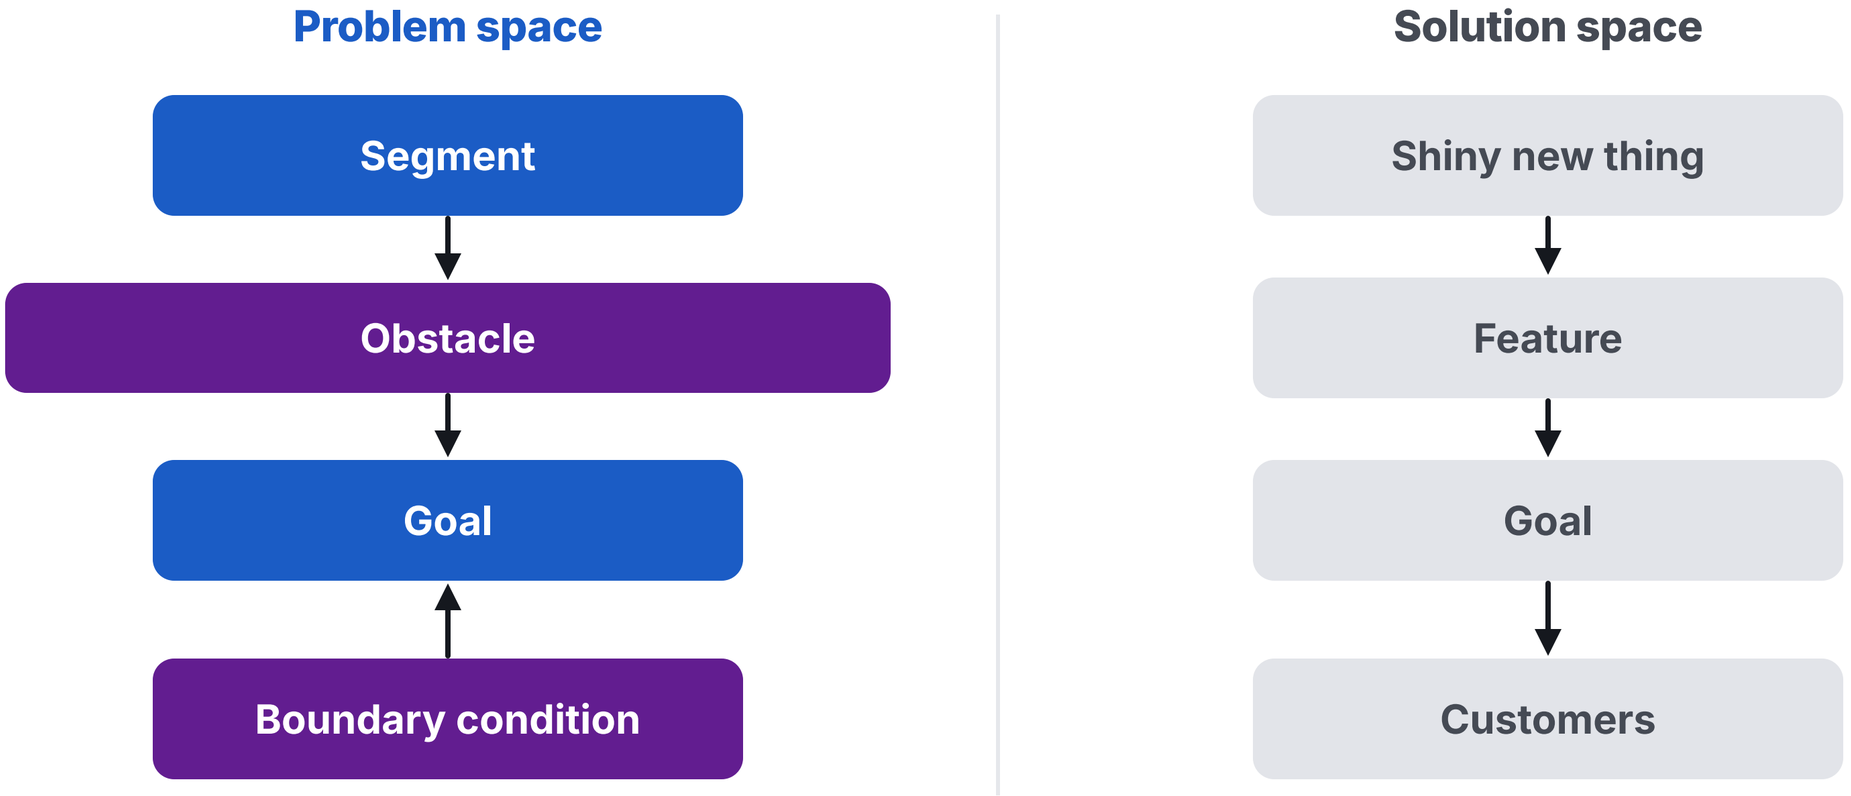

Your idea is a hypothesis

This week you measure what people do

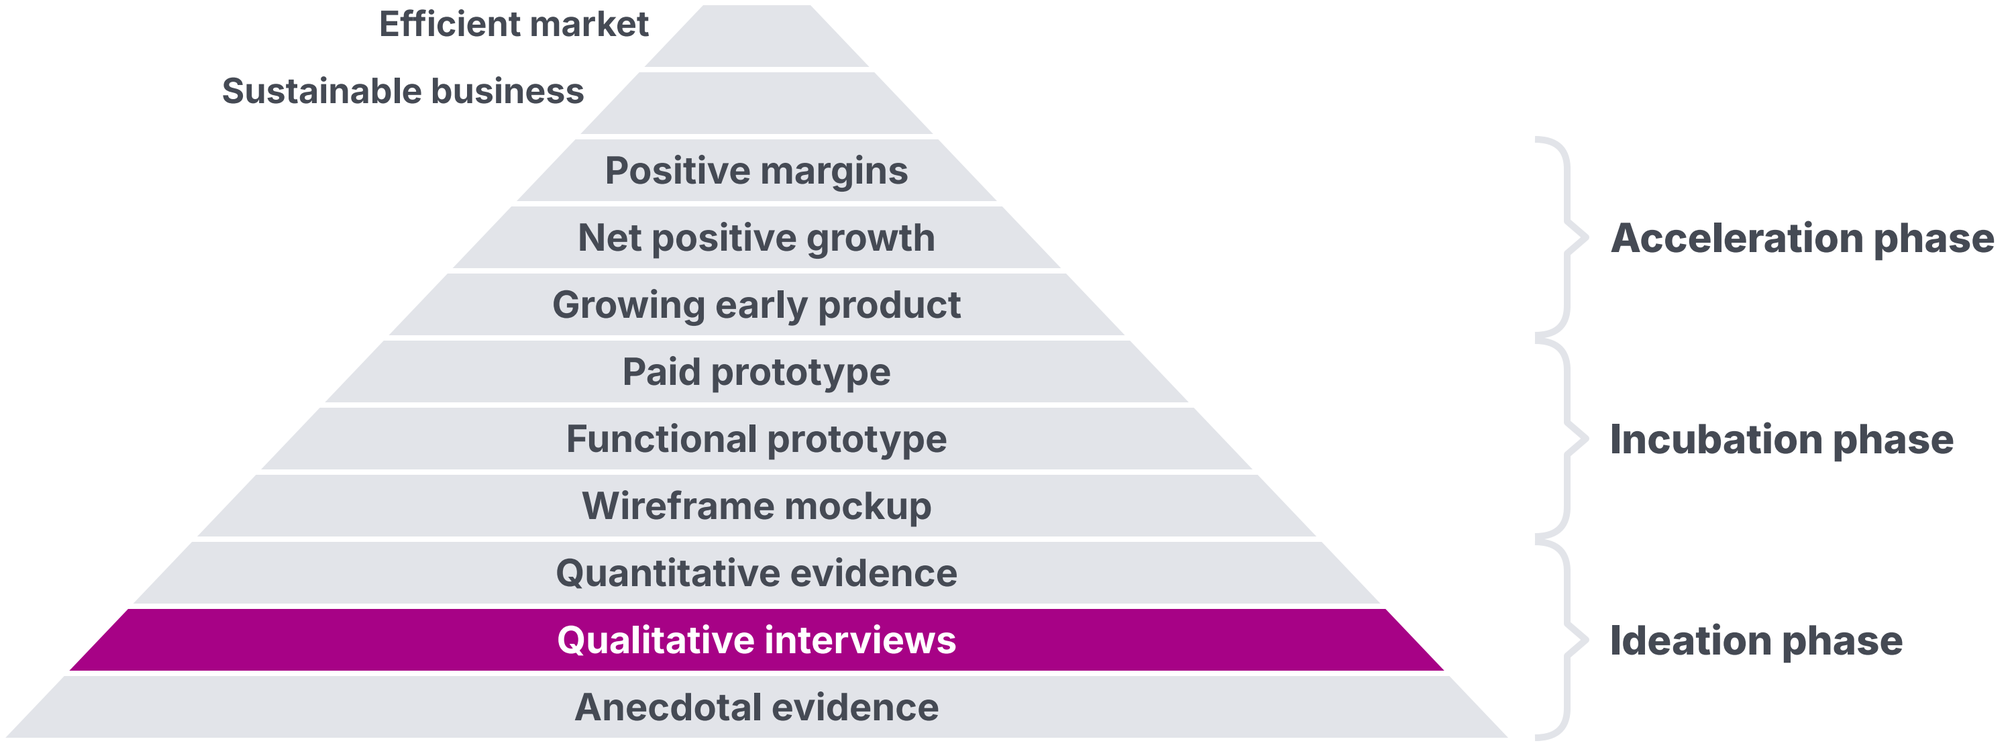

RECAP · MODULE 03

You know who hurts. Now count who acts

RECAP · MODULE 03

Last week you stood on the second step

BASTIAN Hierarchy of evidence in the lean startup, legacy slides 128, 194 and 211.

TODAY'S QUESTION · HANDS

What evidence would change your mind?

1

2

1:00

CHAPTER 2 OF 9

Your presentations

Three minutes per team to show what your records say since last week.

01 ~~Recap from last time~~

02 **Your presentations**

03 The hierarchy of evidence

04 Lines before data

05 Landing pages

06 Traffic and conversion

07 Wrap-up and check-out

08 Workshop: launch a page that tests your problem

09 Case discussion

YOUR PRESENTATIONS · MAKE IT CREDIBLE

Show us where you're at in 3 minutes or less!

3:00

Facts

Statistics or research

What does your segment spend?

Where is it from?

Numbers

Your Interview Log

Conversations held

Next steps agreed

Spend in € or hours

Quotes

Interviews

The three that decided it

Images

Screenshots or users

The workaround, if they showed it

Verdict: segment, job, stay or switch

Hypothesis: three people likely to pay first

What did you do?

What did you learn?

How can we help?

CHAPTER 3 OF 9

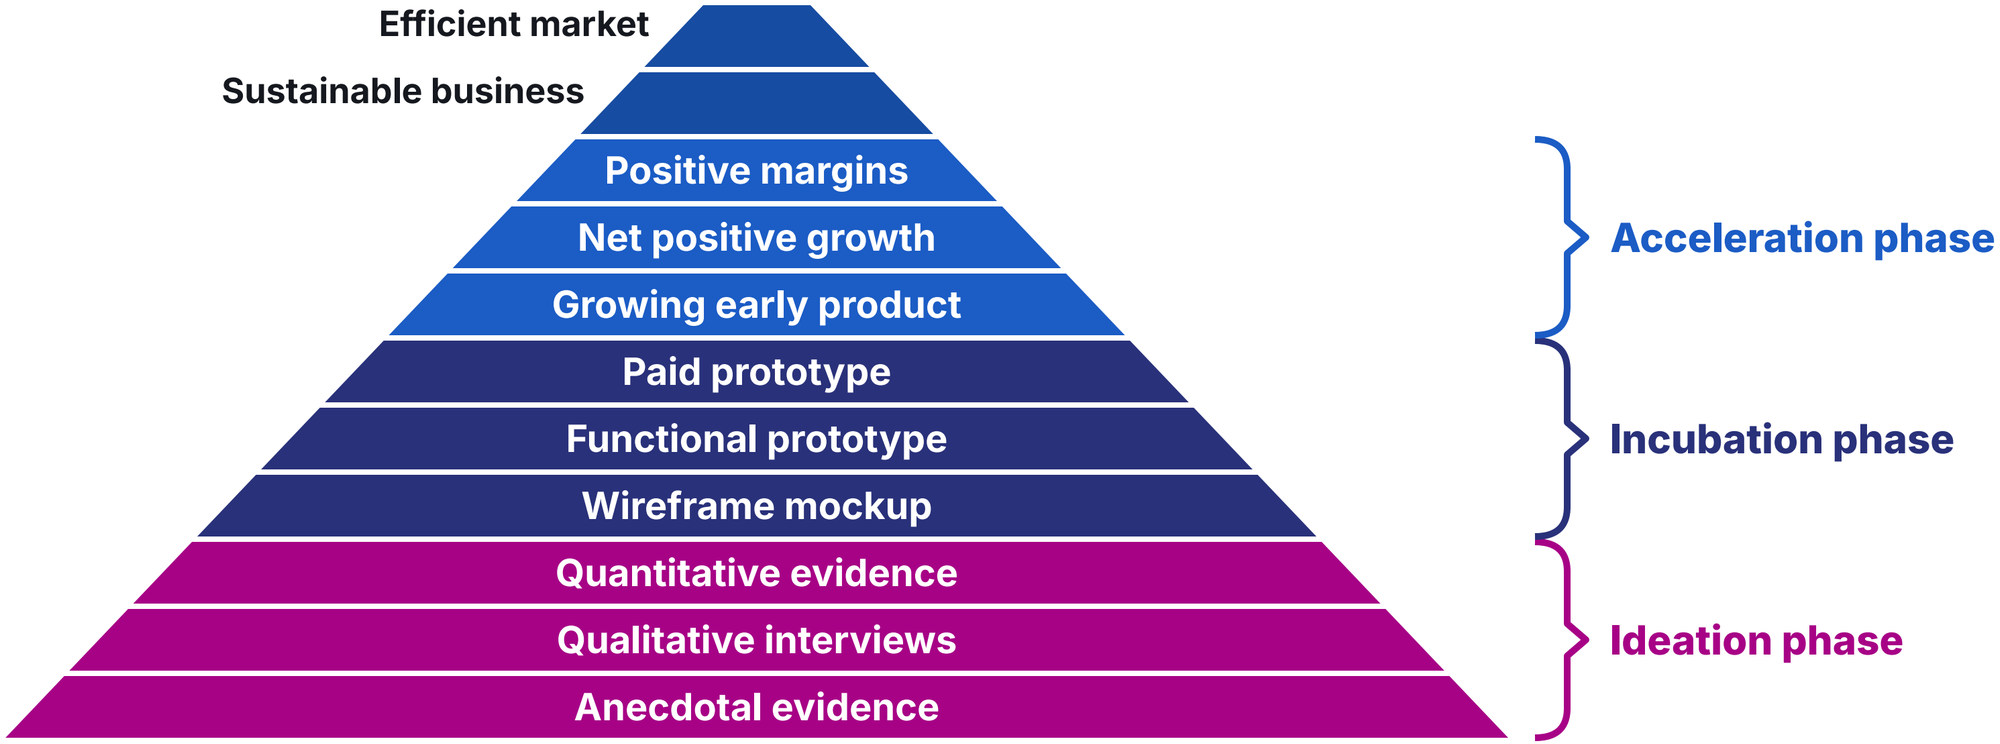

Let's jump in! The hierarchy of evidence

What you know is only as strong as the step it stands on.

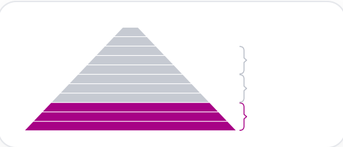

01 ~~Recap from last time~~
02 ~~Your presentations~~
03 **The hierarchy of evidence**
04 Lines before data
05 Landing pages
06 Traffic and conversion
07 Wrap-up and check-out
08 Workshop: launch a page that tests your problem
09 Case discussion

CORNERSTONE · HIERARCHY OF EVIDENCE

Climb from what they say to what they pay

BASTIAN Hierarchy of evidence in the lean startup, legacy slide 128. A practitioner ladder, untested as a whole.

THE RUNNING EXAMPLE · THE ARM THAT HURTS

Anecdotes diagnose. Interviews theorize. Numbers verify

Anecdote

N under 5 · subjective

"When I do this, my arm hurts."

Diagnose

Interviews

N under 20 · unstructured

"Doing this is ok, but that hurts."

Theorize

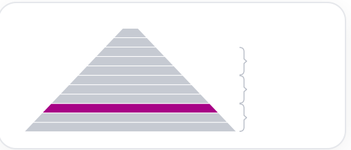

Numbers

N over 20 · structured

"Sore arm in 90% of runs against a pole."

Verify

SURVEYS · WHEN THEY COUNT

A survey counts only when it asks about the past

1 **"How often did it hurt last week?"**

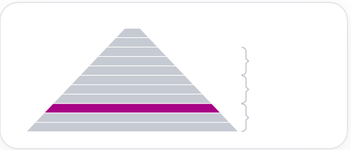

~~"Tell me about instances when it hurts."~~

2 **Never mention your solution**

~~"This is what we build, do you like it?"~~

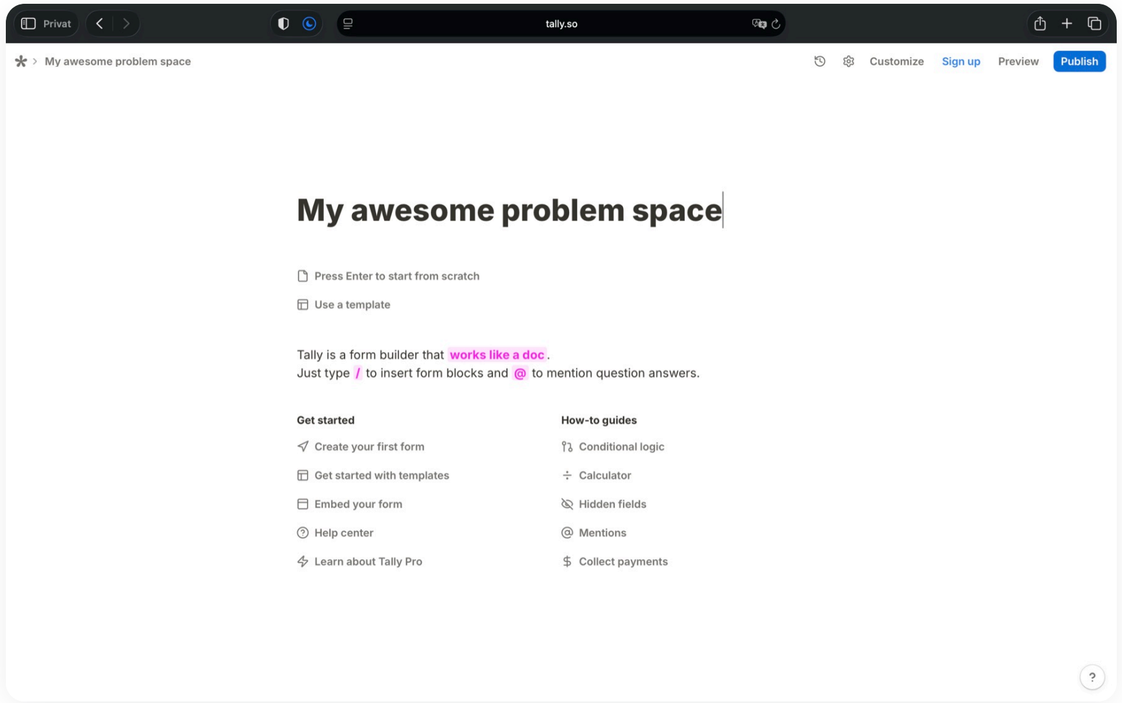

3 **Role and context, to count your segment**

4 **Short, in their words**

HOW-TO · SURVEY · STEP 1 OF 3

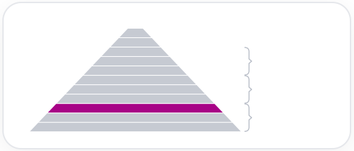

Build the form in ten minutes

1. **Build the form**
2. Send it to people who acted
3. Let AI count, then check

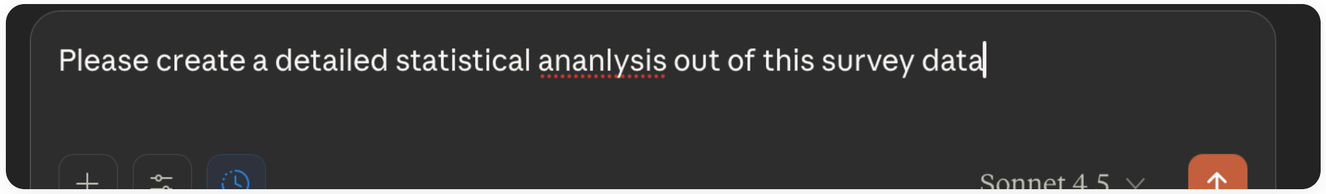

Closed questions only.

BASTIAN Tally on Bastian's screen, 2025, legacy slide 140. Any form tool works.

HOW-TO · SURVEY · STEPS 2 AND 3 OF 3

Let AI count. Check every number

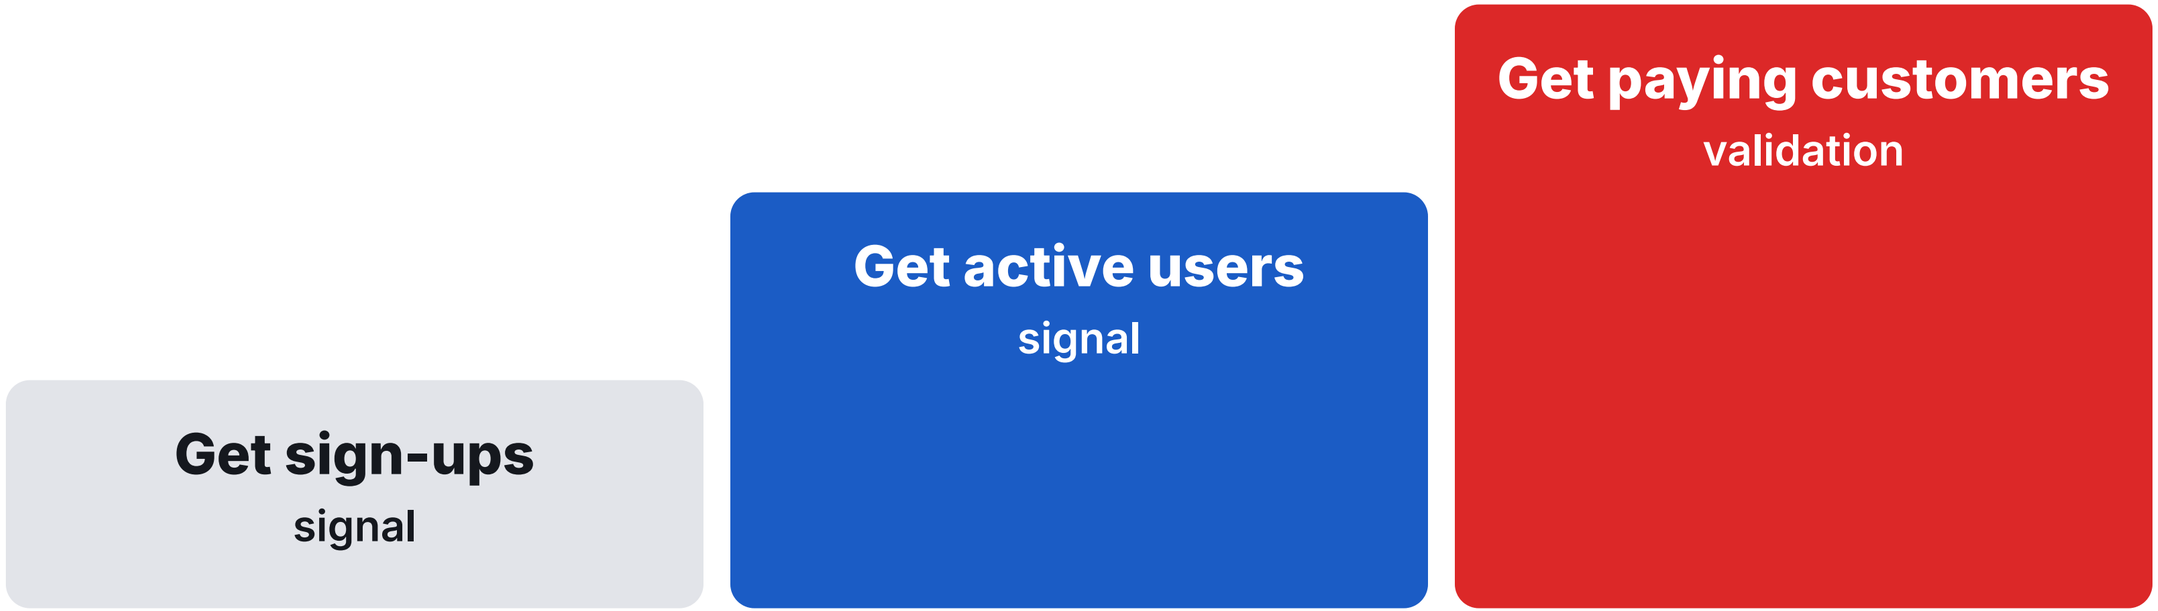

1. Build the form
2. Send it to people who acted
3. **Let AI count, then check**

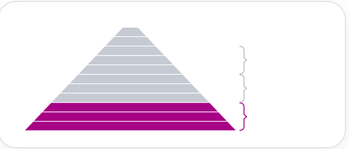

Export without names and emails.

MANTRA · LEGACY

Real validation comes through the credit card

BASTIAN Legacy slide 244. Signal and validation as defined in the course Glossary.

NOW YOU · AS A TEAM · 3 MINUTES

Put your evidence on the pyramid

Anecdote What did one person say?

Interviews What did many say?

Number What did 20+ do?

Limit What does it not prove?

3:00

OUTPUT

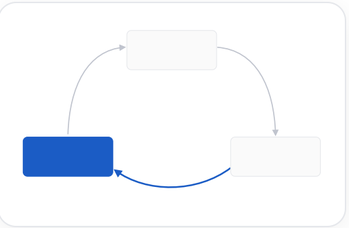

Your top step, honestly

CHAPTER 4 OF 9

Draw the line before the data

Write down what would change your mind before the first visitor arrives.

01 ~~Recap from last time~~
02 ~~Your presentations~~
03 ~~The hierarchy of evidence~~
04 **Lines before data**
05 Landing pages
06 Traffic and conversion
07 Wrap-up and check-out
08 Workshop: launch a page that tests your problem
09 Case discussion

WHY IT MATTERS

Decide after the data, and everything says yes

96% · standard psychology papers

positive

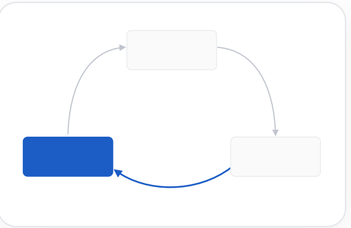

44% · Registered Reports, hypotheses filed first

positive

57% → 8%
heart trials with a benefit, before and after 2000

87%
of 67 top-journal trials needed a correction for their outcomes

RESEARCH Scheel, Schijen & Lakens (2021), 152 standard vs 71 Registered Reports, bars to scale. Kaplan & Irvin (2015), 55 trials. Goldacre et al. (2019).

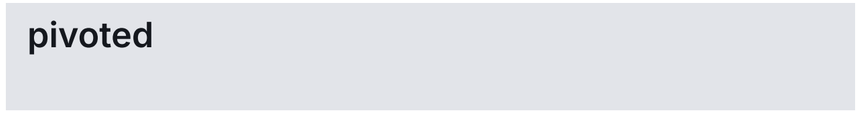

WHY IT MATTERS · FOUNDERS

Founders taught to test pivot more

32% · trained to test hypotheses, 19 of 59

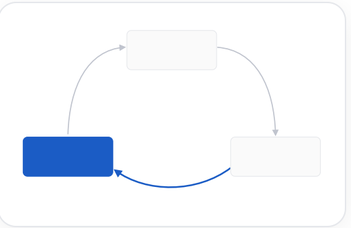

19% · control group, 11 of 57

116
Italian startups, randomized

759
firms in 2024: more ideas stopped

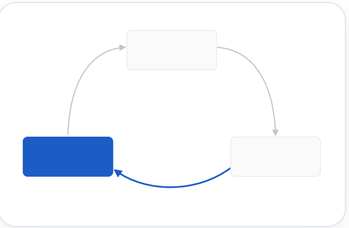

RESEARCH Camuffo, Cordova, Gambardella & Spina (2020), *Management Science*. Camuffo et al. (2024), *Strategic Management Journal*. Bars to scale, 0 to 50%.

TEST CARD · BEFORE ANYONE VISITS

Write the test before the page exists

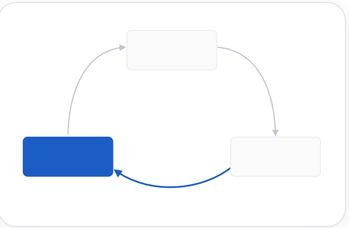

We believe	[segment] will [action] when we promise [outcome]
To verify, we	publish the page, bring [N] visitors from [sources]
And measure	the share of segment visitors who take the action
We are right if	[X]% or more by [date], logged today
Then	pass: [next step] · fail: switch segment or problem

EXAMPLE · LEGACY 169

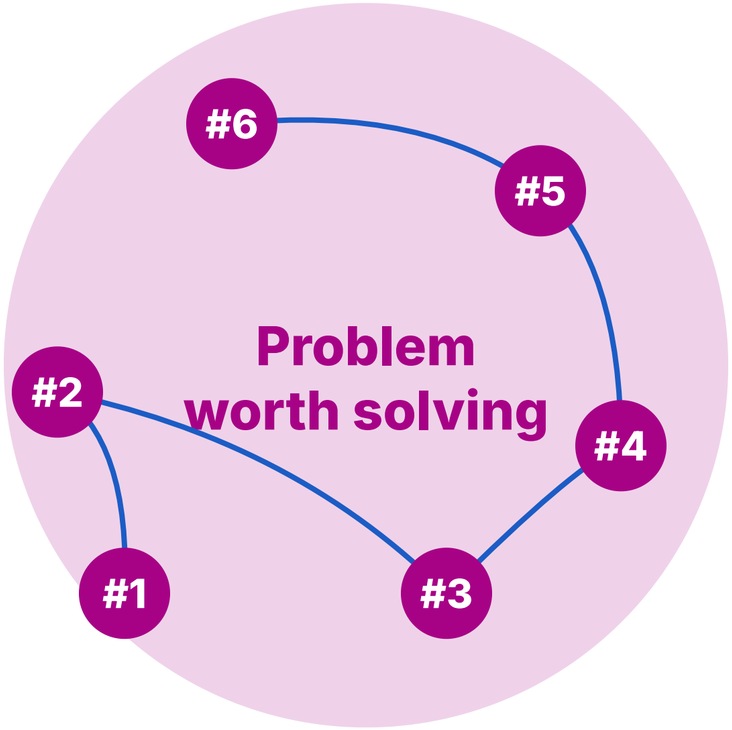

Even an interview test gets a number

We believe	new founders struggle to structure their processes
To verify, we	hold 15 interviews with early-stage founders
And measure	their difficulty, rated from 1 to 10
We are right if	10 out of 15 rate it 7 or higher
Time	2 weeks

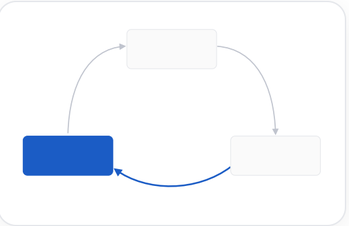

WHEN YOU MISS THE LINE

Missed the line? Move inside the problem space

You are passionate about it
Your audience is passionate about it
You can make a good living from it

Each hop is the next segment or problem

NOW YOU · AS A TEAM · 3 MINUTES

Write your test card

We believe [segment] will [action]

We measure share of segment visitors

We pass at [X]% by [date]

Then pass, and fail

3:00

OUTPUT

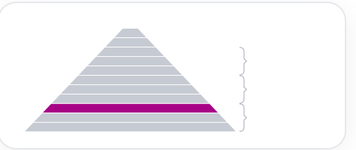

One card, dated today

CHAPTER 5 OF 9

Vibe-coded quantitative problem validation

A page in their words with one button is your first quantitative test.

01 ~~Recap from last time~~
02 ~~Your presentations~~
03 ~~The hierarchy of evidence~~
04 ~~Lines before data~~
05 **Landing pages**
06 Traffic and conversion
07 Wrap-up and check-out
08 Workshop: launch a page that tests your problem
09 Case discussion

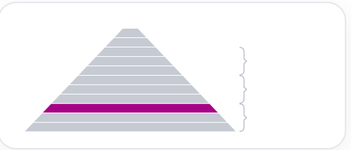

STORY · ZAPPOS, 1999

He sold the shoes before he owned them

1. **No shop has the boots he wants**
2. **He photographs a shop's shoes**
3. **He puts the photos online**
4. **Someone orders. He buys the pair at full price**

DATA Swinmurn, N., as told to D. Eng (2012, 5 September). *Fortune*. Prather, M. (2000, 1 December). Sole proprietor. *Entrepreneur*.

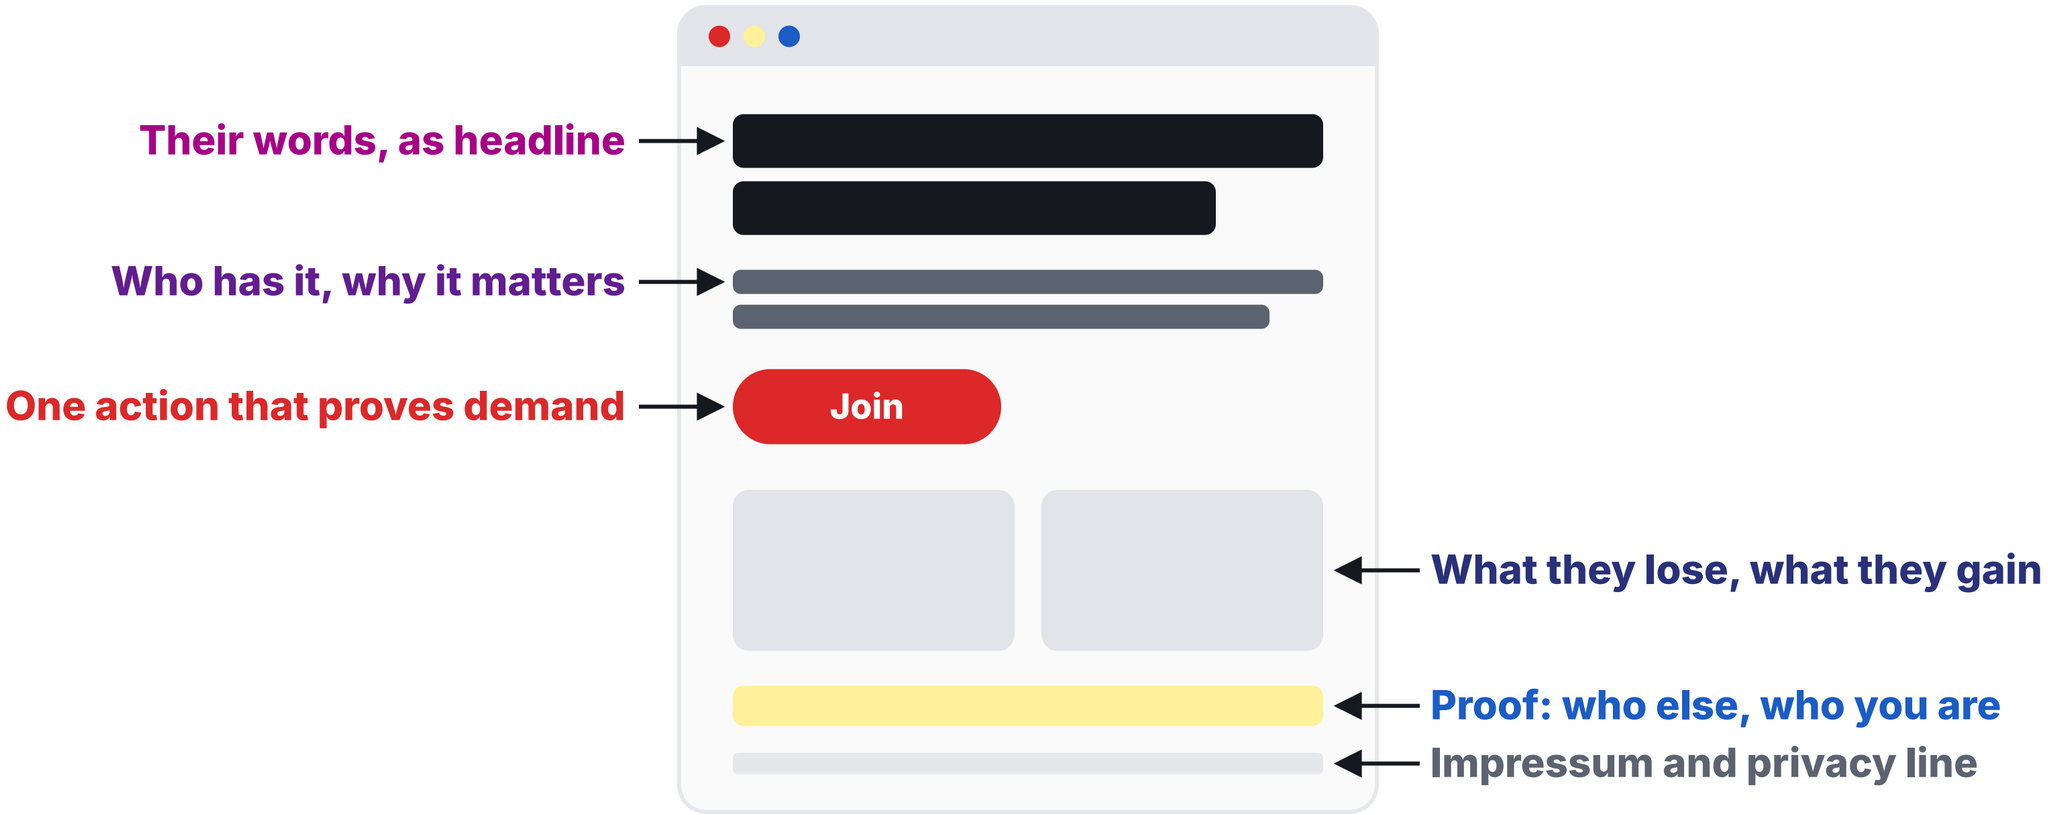

The first thing we always tell founders is to launch their product right away …

TO

Structure your startup operations

LANDING PAGE CONTENT · TIP 2 OF 4

One line says what, for whom, which change

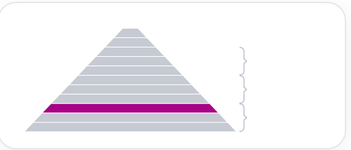

FROM

Bundle is a course

↓

TO

A course for entrepreneurs to structure internal operations

LANDING PAGE CONTENT · TIP 3 OF 4

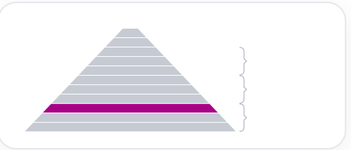

Benefits, not features

FROM

Features of your product

TO

More structure. Less manual work.

LANDING PAGE CONTENT · TIP 4 OF 4

Ask for the action that proves demand

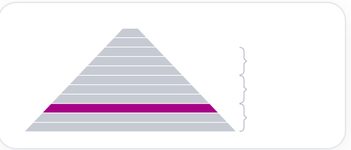

FROM

Learn more

↓

TO

Apply now · Book a call · Buy

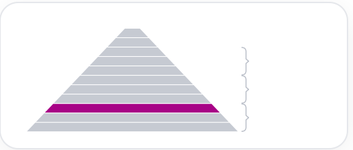

VOTE · HANDS

Which button proves the most demand?

1. **Follow us**
2. **Join the waitlist**
3. **Book a 15-minute call**
4. **Pre-order**

1:00

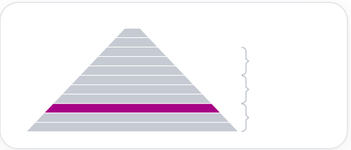

AI COPYWRITING

Don't write from scratch. Start from their words

```
Act as a senior copywriter. Based on these interview notes [PASTE NOTES], write 5 variations of a Landing Page Hero Section (Headline + Subheadline + CTA) that addresses the core pain point directly.
```

A starting point, not the final copy.

NOW YOU · ALONE · 3 MINUTES

Your headline, from one quote

Quote What did they say, word for word?

Problem In their words

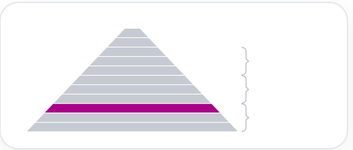

Outcome What changes for them?

Button One action

3:00

OUTPUT

One hero section

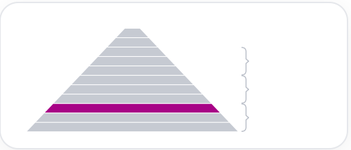

TOOLING TO TEST A PROBLEM SPACE

Any builder works. Ship today

Fast and simple → Flexible

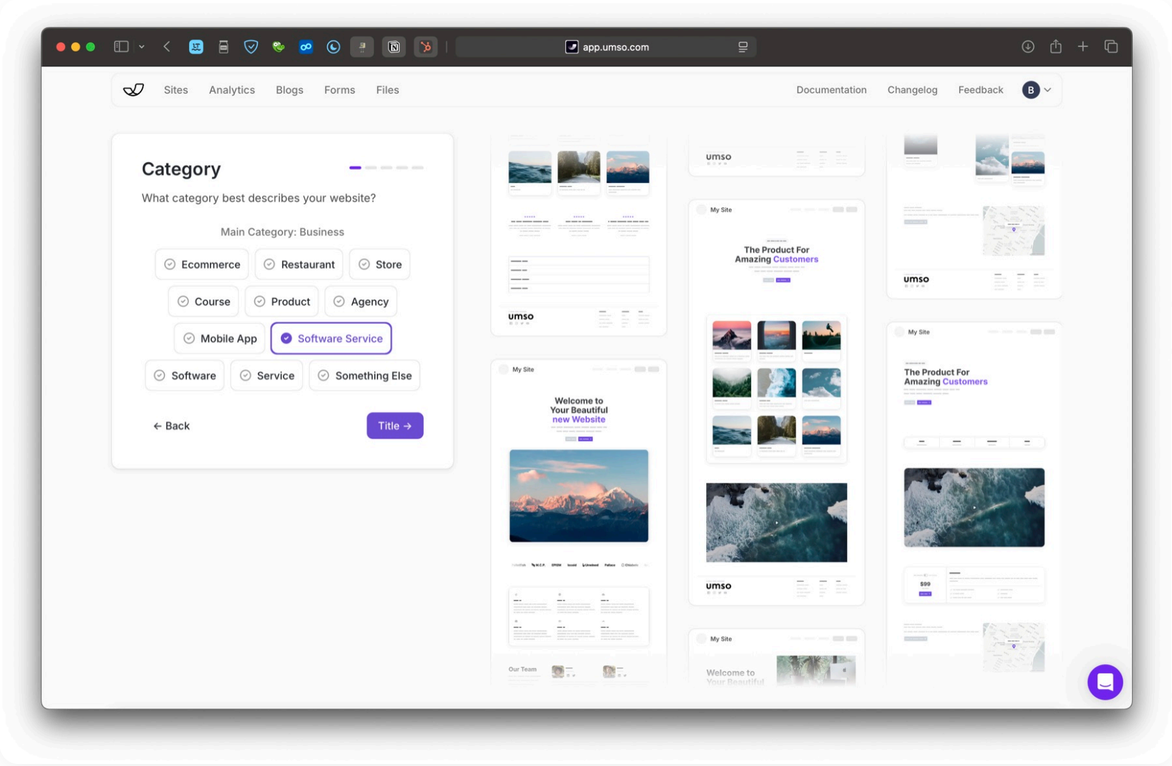

Notion	Framer	Webflow	Lovable
A doc as a page	Free plan on a Framer domain	Free starter, more design	Vibe-coded, free daily credits

BASTIAN Legacy slide 216, refreshed. Vendor pricing pages, as of October 2026. Logos are trademarks of their owners.

HOW-TO · BUILD A PAGE · STEP 1 OF 3

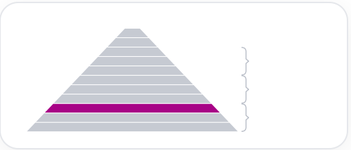

Pick a template. Skip the design debate

1. **Pick a template**
2. Describe the problem, let AI draft
3. Rewrite in their words, publish

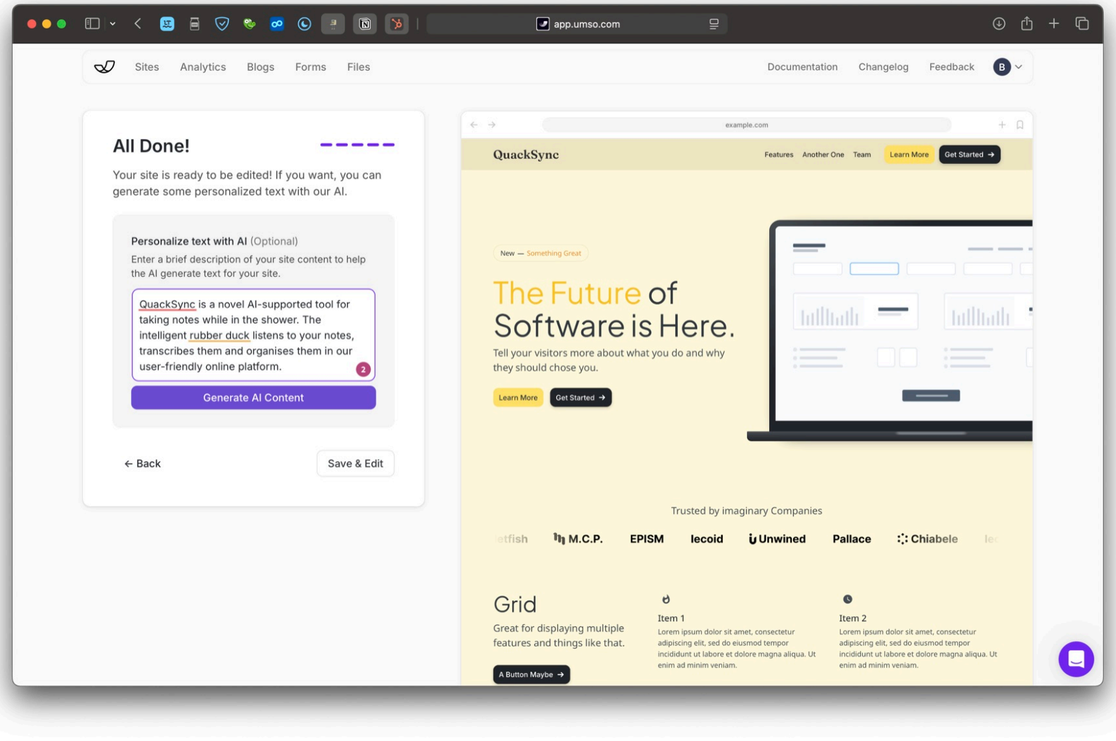

Business, then your category.

BASTIAN Umso on Bastian's screen, 2025, legacy slides 218 to 222. QuackSync is a made-up example.

HOW-TO · BUILD A PAGE · STEP 2 OF 3

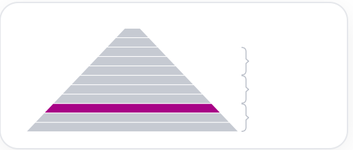

Describe the problem. Let AI draft

1. Pick a template
2. **Describe the problem, let AI draft**
3. Rewrite in their words, publish

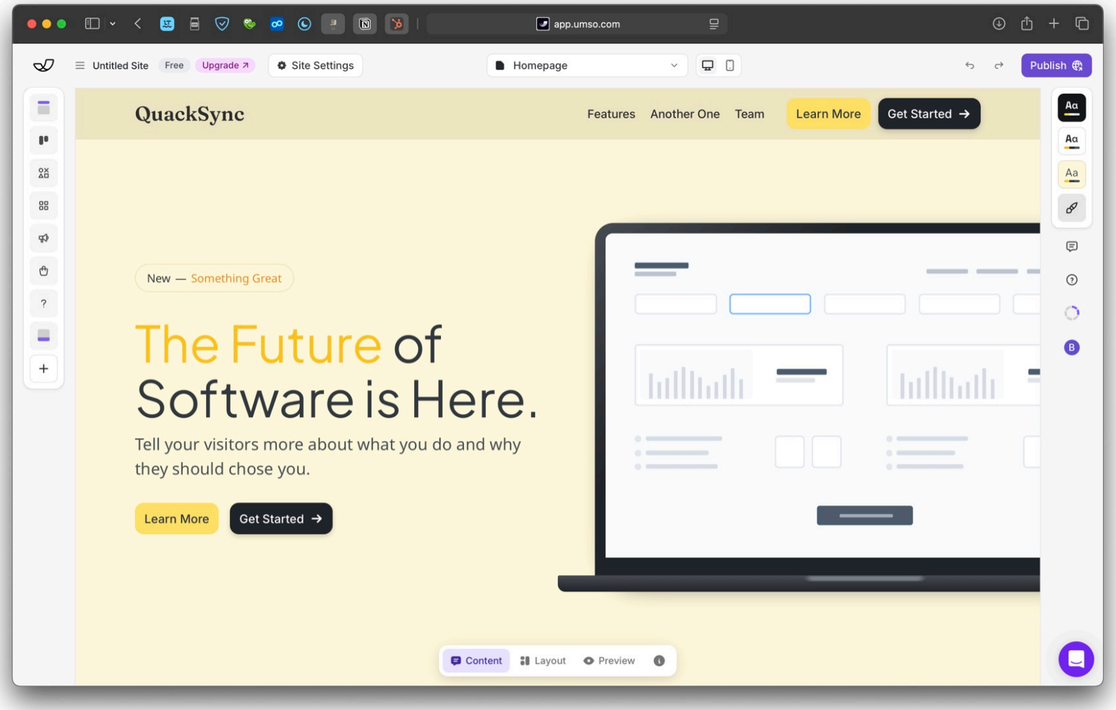

AI drafts. You decide.

BASTIAN Umso on Bastian's screen, 2025, legacy slides 218 to 222. QuackSync is a made-up example.

HOW-TO · BUILD A PAGE · STEP 3 OF 3

Rewrite the hero in their words

1. Pick a template
2. Describe the problem, let AI draft
3. **Rewrite in their words, publish**

Their sentence goes here.

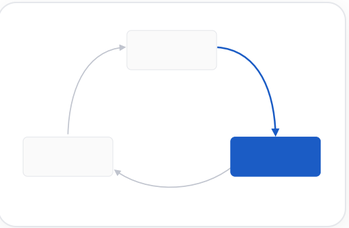

BASTIAN Umso on Bastian's screen, 2025, legacy slides 218 to 222. QuackSync is a made-up example.

CHAPTER 6 OF 9

Bring your segment. Count your segment

Bring the people who have the problem, and count only them.

01 ~~Recap from last time~~
02 ~~Your presentations~~
03 ~~The hierarchy of evidence~~
04 ~~Lines before data~~
05 ~~Landing pages~~
06 **Traffic and conversion**
07 Wrap-up and check-out
08 Workshop: launch a page that tests your problem
09 Case discussion

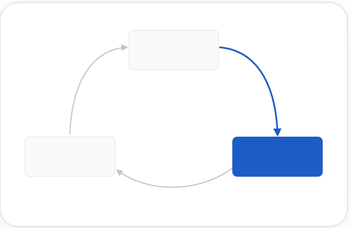

LET'S TALK CONVERSION

Work backwards from the sign-ups you need

Impressions	Clicks	Sign-ups
740	25	1
	3.4% click-through	4% sign-up

Work backwards: how many impressions for the sign-ups you need?

SPEED MATTERS

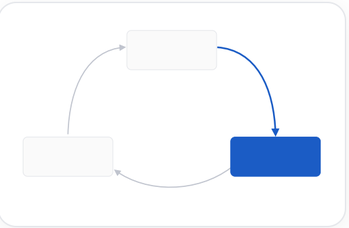

To get, every day, each of you, at least

15 visitors

```
  300 see your link
× 5%  click → 15
  × 7 days → 105
-----------------
× 10% sign up → 10
```

300 a day see your link!

ILLUSTRATIVE Arithmetic of legacy slide 247, redone per student from the homework bar (100 visitors per student) and the default line (10%). The 5% click-through is an assumption, not a benchmark.

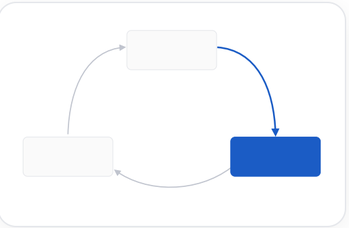

DISTRIBUTION

Go where your segment already is

1% inspiration ~~99% perspiration~~ **99% distribution**

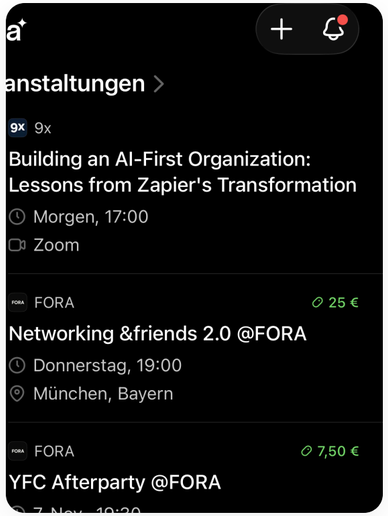

B2B	Developer tools	B2C	Niche audience	Niche problem
LinkedIn	Hacker News	Instagram	Discord	Facebook groups
Industry groups	Product Hunt	WhatsApp	Slack	Forums
		X		

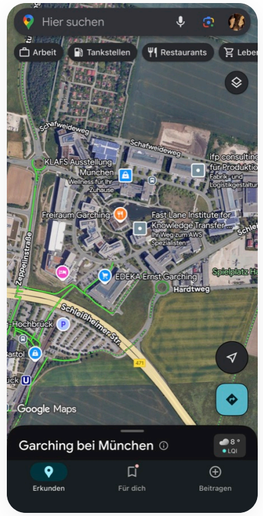

FINDING THE ROOM

Name the room, not the channel

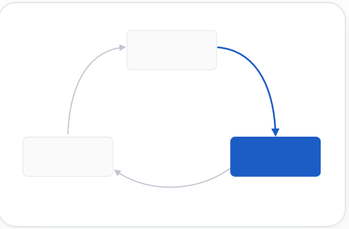

ONLINE COMMUNITIES · ONE NAMED LUMA EVENT

OFFLINE PLACES · A CAMPUS CANTEEN

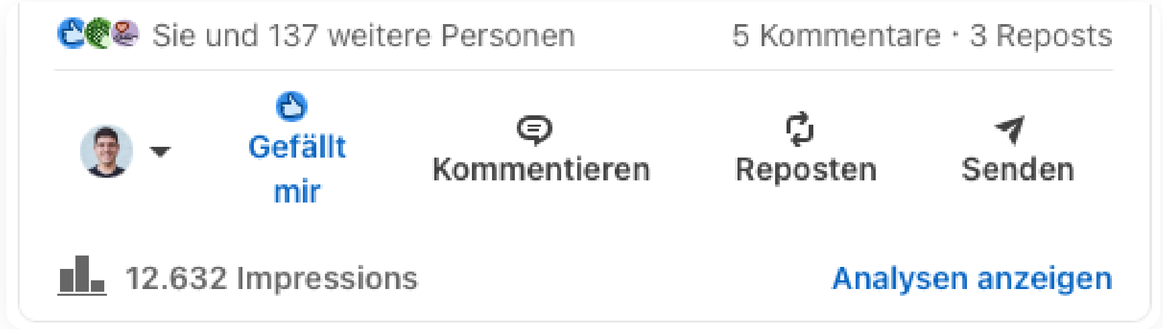

BASTIAN Audiences beyond social media, legacy slides 238 and 242. Phone screenshots, Bastian, 2025.

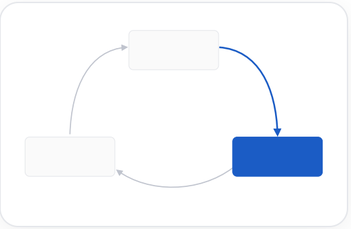

BUILDING AN AUDIENCE

Post what you learn. Talk to who reacts

1. **Post what you found, what surprised you**
2. **Message everyone who reacts**
3. **Check: are they your segment?**

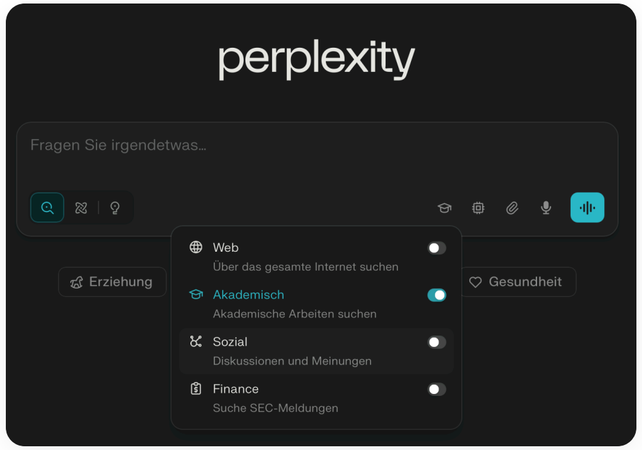

BASTIAN Building an audience, legacy slides 239 to 241. LinkedIn statistics of Bastian's post, captured by March 2026.

HOW-TO · LET AI DO THE HEAVY LIFTING

Let an agent search for you, every Monday

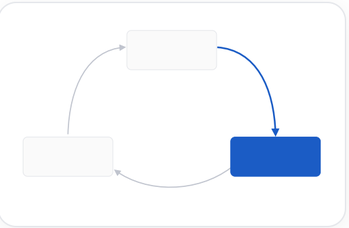

1. **Ask where your segment talks**
2. **Schedule it weekly**
3. **Open every source**

Leads end in a named person.

BASTIAN Perplexity sources and a ChatGPT scheduled task on Bastian's screen, 2025, legacy slide 243.

BENCHMARK · WARM AND COLD

Warm traffic converts. Cold traffic costs

16.9% · email, people on your own list

warm

4.1% · paid search

2.9% · paid social

3.8% · all SaaS landing pages

DATA Unbounce, Conversion Benchmark Report 2024, SaaS medians. A conversion is any click or form event. Bars to scale, 0 to 20%.

COLD TRAFFIC · BASTIAN'S OWN ACCOUNT

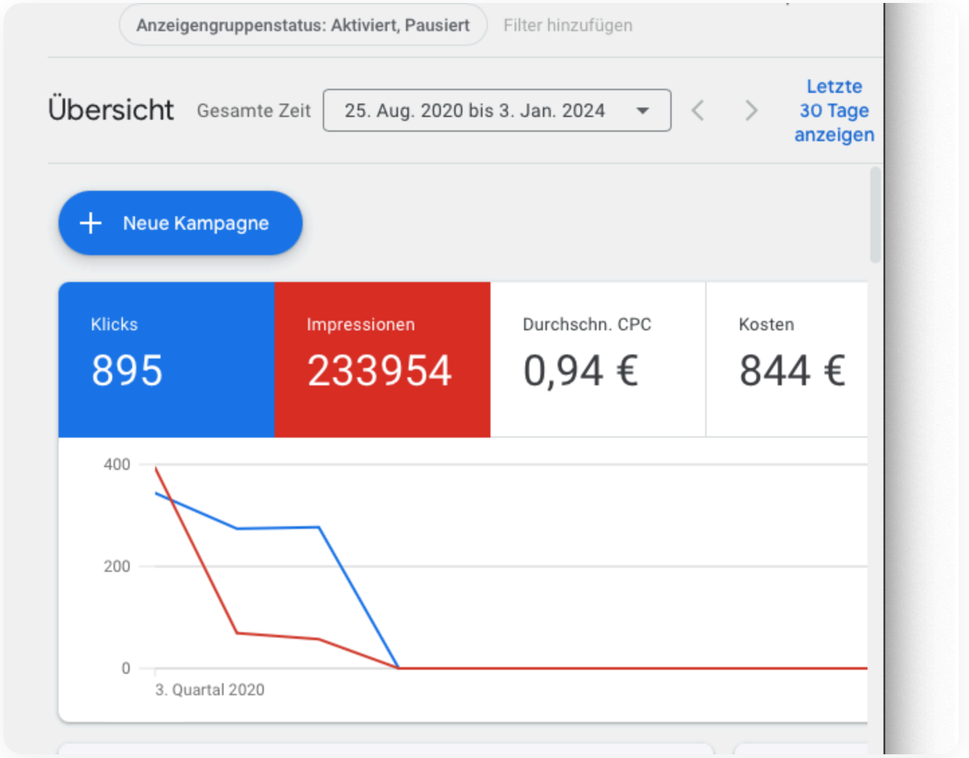

Cold clicks cost €0.94 each

233,954
impressions

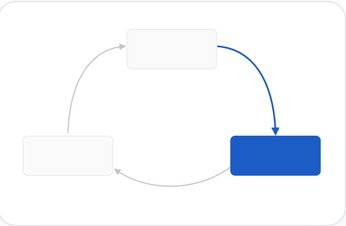

895
clicks

0.38%
clicked

€844
spent

BASTIAN Google Ads account overview, 25 August 2020 to 3 January 2024, legacy slide 233. Click rate: 895 ÷ 233,954.

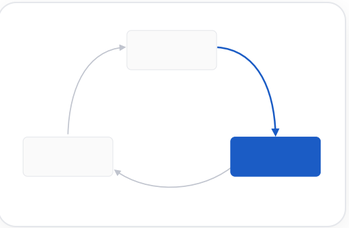

TAGGED LINKS

Tag every link, or you can't tell who converts

```
yourpage.de/?utm_source=linkedin&utm_medium=post&utm_campaign=m04&utm_content=anna
```

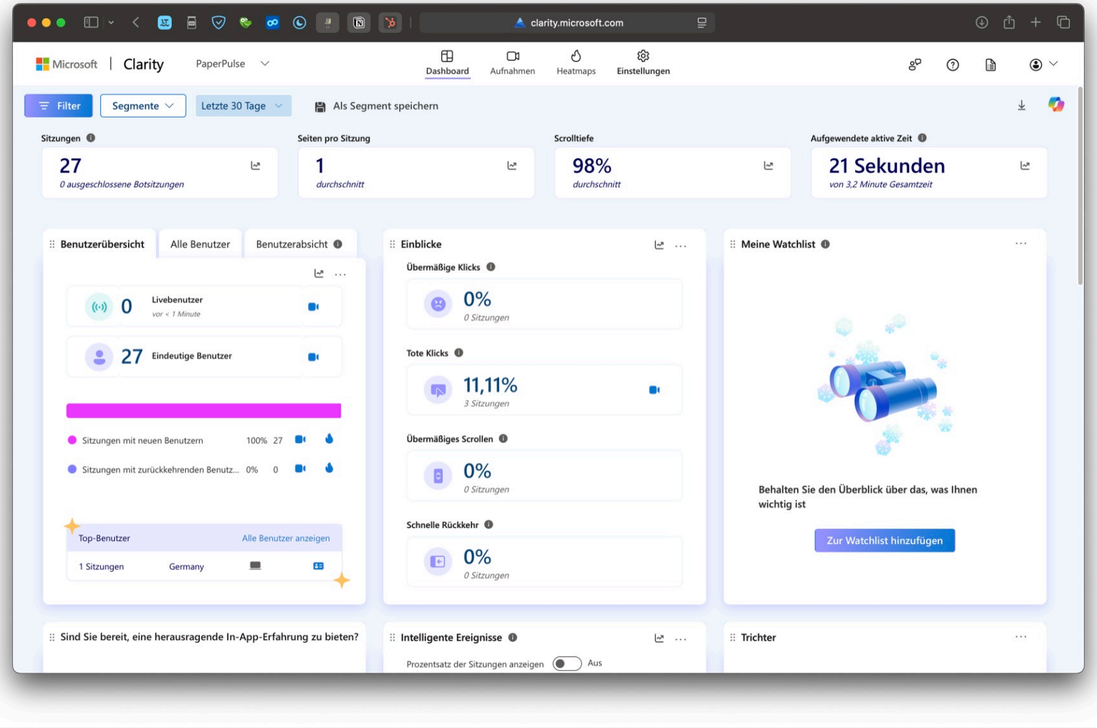

Where | **How** | **Which test** | **Who sent it**

DATA Google, Analytics Help, URL builders: collect campaign data with custom URLs, as of October 2026. Example link illustrative.

SHOW THE REAL THING · ANALYTICS

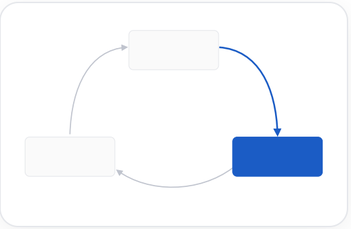

Set up the dashboard before the first visitor

1. **Add the tag to your page**
2. **Add a consent banner for EU visitors**
3. **Filter by source**
4. **Watch your segment's sessions**

EU visitors: banner first.

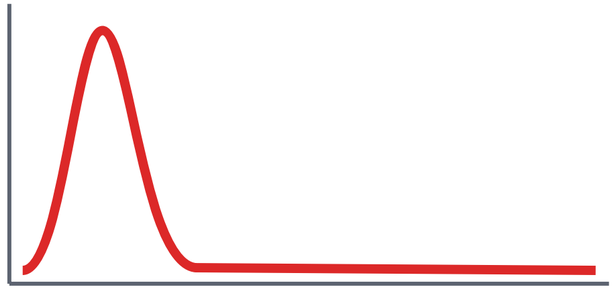

BASTIAN Microsoft Clarity on Bastian's screen, PaperPulse, legacy slide 224, captured by March 2026. Consent rules from the Microsoft Clarity documentation, as of October 2026.

READING YOUR RESULT

Read the curve, then your number

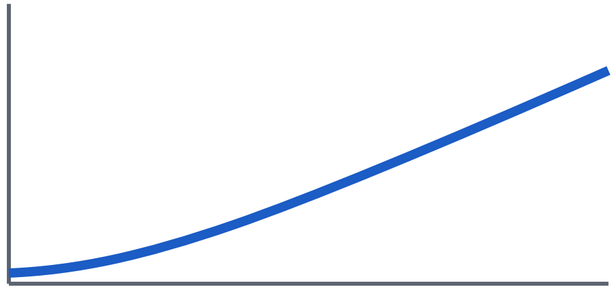

No interest

Wrong group, problem or words

Rework the problem space

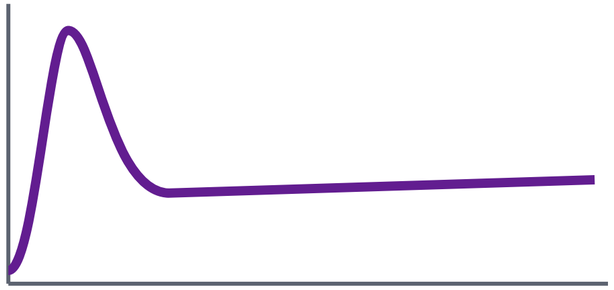

Organic interest

Right group, sustained interest, good words

Find more of them

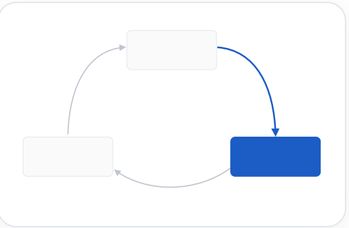

External shock

An article or a post went viral

Don't count the spike

Impressions < clicks < sign-ups. Remember the hierarchy of evidence!

DOUBLE DOWN · AN EXAMPLE

Double down where your segment converts

11.5% · LinkedIn posts in 2 wind-industry groups

7 of 61

16.7% · Direct outreach, 30 emails

4 of 24

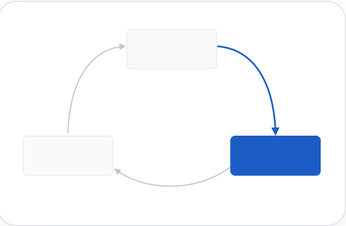

2.3% · €50 search ads

2 of 87

12.9%
segment only, 11 of 85

33
visitors from friends and uni, excluded

ILLUSTRATIVE Synthetic course exemplar, Landing-Page Test, team TurbineTrack. Bars to scale, 0 to 20%. Double down, legacy slide 248.

NOW YOU · AS A TEAM · 3 MINUTES

Your traffic math

Sign-ups How many do you want?

Share What do you expect?

Visitors So how many?

Places Name three, with people

3:00

OUTPUT

Three named places

CHAPTER 7 OF 9

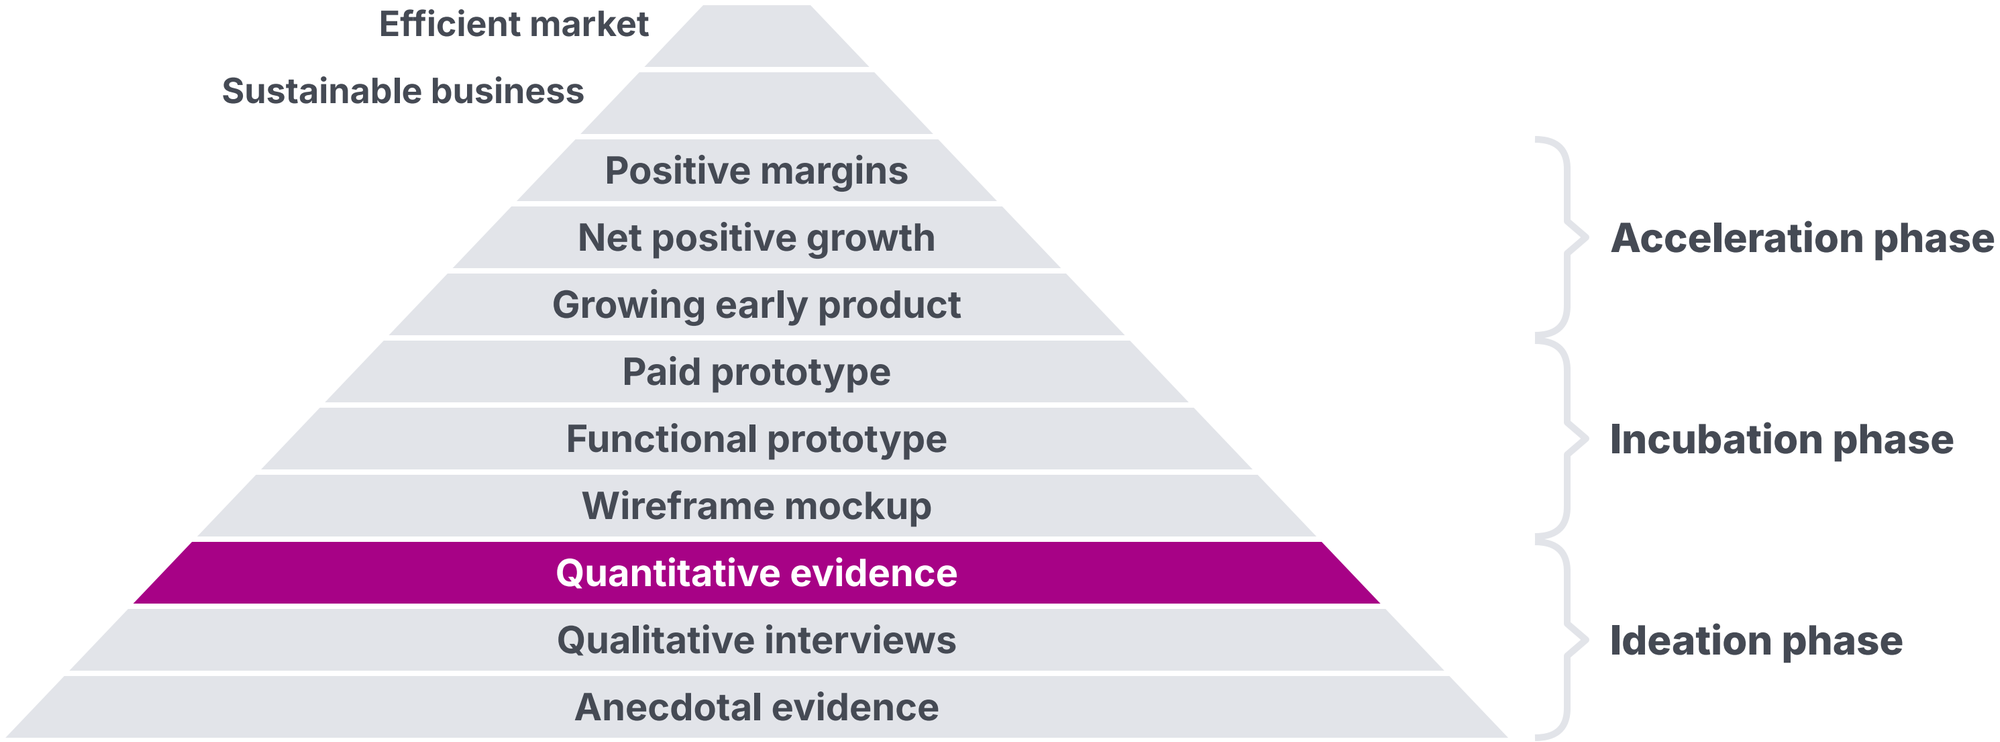

Wrap-up and check-out

What you take into the week, and how today went for you.

01 ~~Recap from last time~~
02 ~~Your presentations~~
03 ~~The hierarchy of evidence~~
04 ~~Lines before data~~
05 ~~Landing pages~~
06 ~~Traffic and conversion~~
07 **Wrap-up and check-out**
08 Workshop: launch a page that tests your problem
09 Case discussion

RECAP · STEP THREE IS A SURVEY OR A PAGE, 20+ PEOPLE

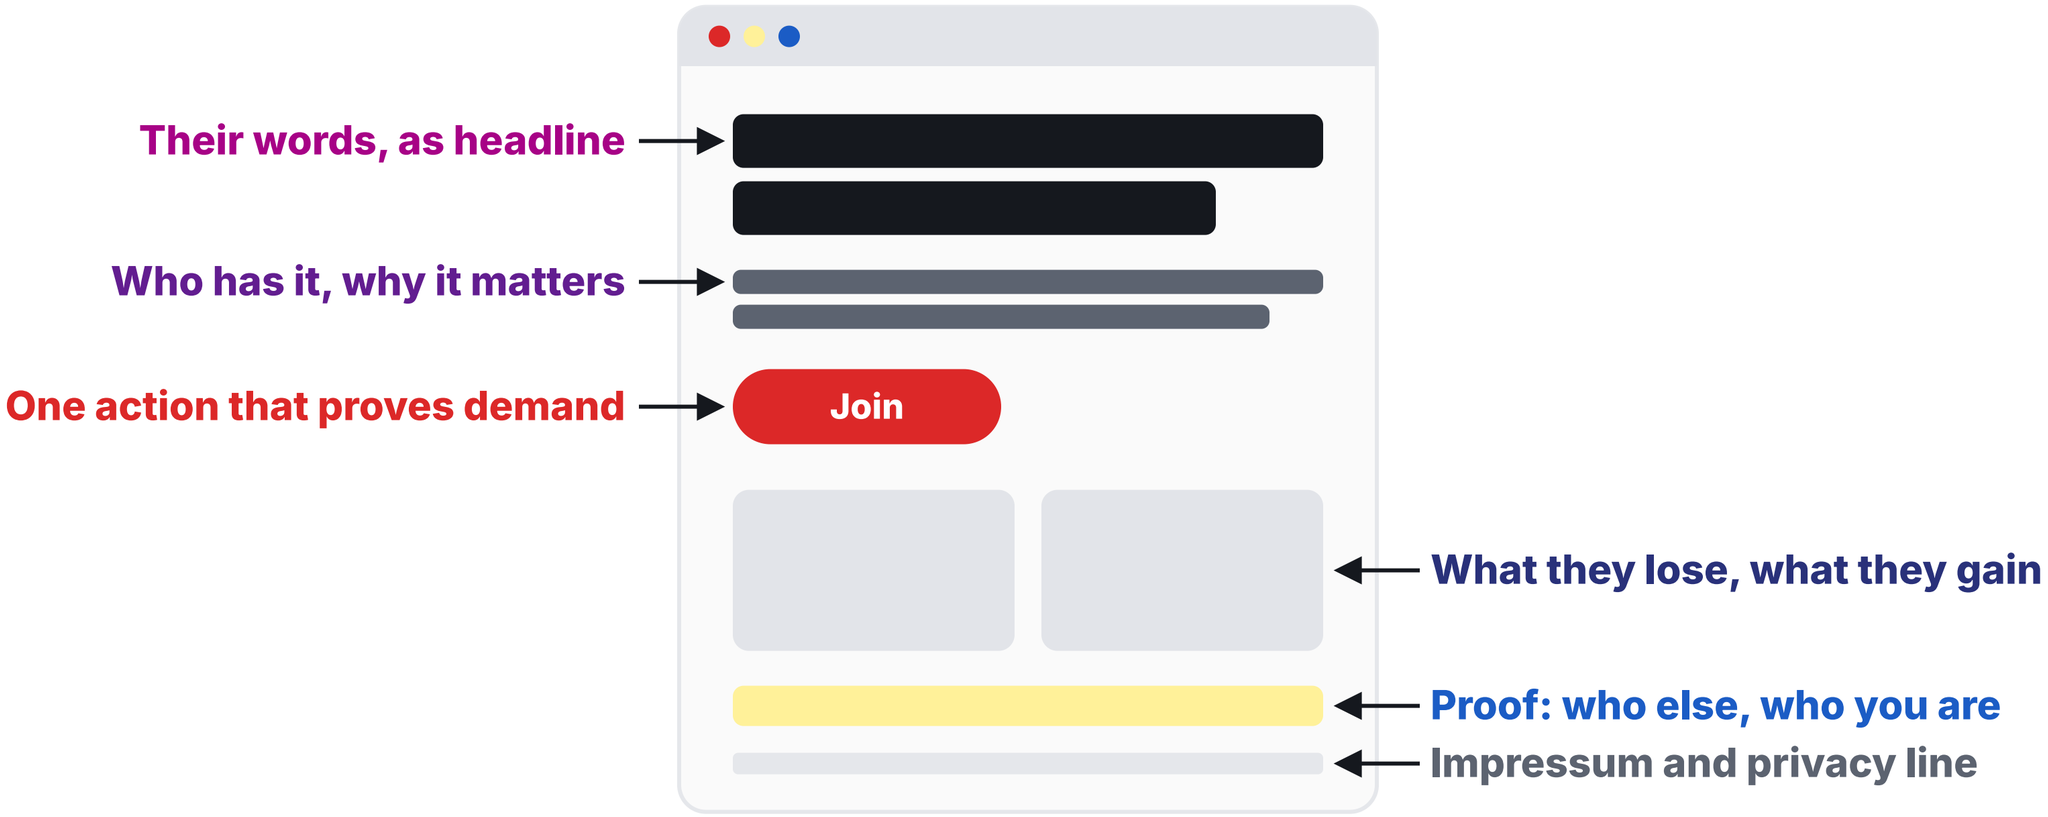

This week you climb from saying to doing

BASTIAN Hierarchy of evidence in the lean startup, legacy slide 128.

RECAP · YOUR PAGE

Their problem, their words, one button

REFLECTION 1 OF 3 · THE CONTENT

What could you apply?

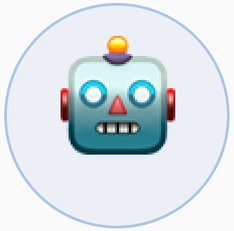

What could you apply?

What gave you a hard time?

REFLECTION 2 OF 3 · THE PROCESS

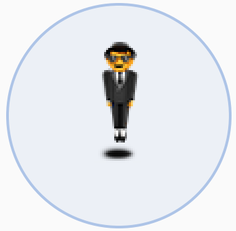

Man vs. machine

Where did AI actually help you?

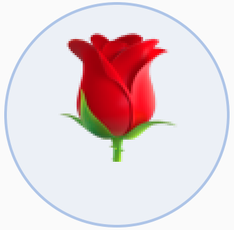

Where was your genius needed?

What are your best hacks to share?

REFLECTION 3 OF 3 · THE RESULTS

Rose, thorn, bud

What was the breakthrough today?

What was the hardest part today?

What is an idea/feature you didn't have time to finish, but want to explore later?

HOMEWORK UNTIL NEXT TIME

Publish one landing page per team, log its pass or fail line before the first visitor arrives, and bring 100 visitors per student from your segment to it.

100 each

The learning floor is the live page, the logged line and 30 visitors per student from your segment.

Your line is logged before anyone visits.

HOMEWORK · HOW TO DO IT

Seven moves for the week

1. Start with your Module 03 prospects
2. Go where your segment is
3. Tag every link
4. Never move the line, log any copy change
5. Call three sign-ups each
6. Survey your sign-ups, optionally
7. Get a blind second opinion

HOMEWORK · WHAT GOOD LOOKS LIKE

A good week ends on your line, not on a feeling

	GOOD	WEAK
Line	10%, logged before launch	Written after the first numbers
Traffic	140 tagged visitors from two recruiter groups	400 visitors, mostly friends
Result	9 of 140, under the line, segment switched	"Lots of interest!"

ILLUSTRATIVE Made-up example from the M04 homework, the recruiting team of the workshop.

Workshop: Launch a page that tests your problem

Write the test, launch the page, and send your first visitors before you leave.

What evidence would change your mind?

01 Recap from last time
02 Your presentations
03 The hierarchy of evidence
04 Lines before data
05 Landing pages
06 Traffic and conversion
07 Wrap-up and check-out
08 Workshop: launch a page that tests your problem
09 Case discussion

WORKSHOP · STEP 1 OF 3

Write the test, then the copy

1 STEP 1 · 30 MIN

WRITE THE TEST, THEN THE COPY

Decide what result would change your mind

→ We believe [segment] will [action] when we promise [outcome]
→ Kill line in the Kill Criteria Log, dated, before the page exists
→ Raw notes into an AI, names removed, five hero sections
→ Pick the headline closest to what someone said

Output Test card, dated kill line, hero section

Minutes 30

30:00

WORKSHOP · STEP 2 OF 3

Launch in under an hour

2 STEP 2 · 35 MIN

LAUNCH IN UNDER AN HOUR

A live page that names their problem, asks for one action

→ Their words, why it matters, what changes, one button
→ Form: email plus one segment question
→ Impressum and privacy line, or it stays offline
→ Analytics with visitors and sign-ups per source, then publish
→ Five-second test with another team

Output A public link and analytics that count

Minutes 35

35:00

WORKSHOP · STEP 3 OF 3

Bring your segment, then commit

3 STEP 3 · 25 MIN

BRING YOUR SEGMENT, THEN COMMIT

Leave with visitors on their way

→ Work backwards: 10 sign-ups at 10% need 100 visitors
→ Prospects first, then communities, groups, newsletters
→ One tagged link per student and channel
→ First messages sent before you leave
→ Each student picks floor or full bar, midweek pace

Output Tagged links, sent messages, targets, pace

Minutes 25

25:00

ARRIVED EMPTY-HANDED?

Start in the forums where they complain

No interview notes? Copy your segment's exact sentences from the forums where it complains, mark the promise as assumed, and post your link there in Step 3.

HOMEWORK UNTIL NEXT TIME

Publish one landing page per team, log its pass or fail line before the first visitor arrives, and bring 100 visitors per student from your segment to it.

100 each

The learning floor is the live page, the logged line and 30 visitors per student from your segment.

Your line is logged before anyone visits.

See you next week!

MODULE 04 · VALIDATING PROBLEMS · CASE DISCUSSION · ABOUT 90 MINUTES

Case discussion: Fairphone

Stand in Fairphone's shoes on 13 May 2013 and decide whether to sell 5,000 phones before making one.

Do you open the pre-sale on this benchmark?

01 Recap from last time
02 Your presentations
03 The hierarchy of evidence
04 Lines before data
05 Landing pages
06 Traffic and conversion
07 Wrap-up and check-out
08 Workshop: launch a page that tests your problem
09 **Case discussion**

CASE · FAIRPHONE, AMSTERDAM, 2010 TO 13 MAY 2013

Three years of campaign, one month to sell 5,000

CASE · MONDAY 13 MAY 2013 · VOTE 1 OF 2

Open the pre-sale on this benchmark, or not yet?

OPTION A

Open the pre-sale on this benchmark

OPTION B

Not yet

€325
the price, paid up front

5,000
phones sold

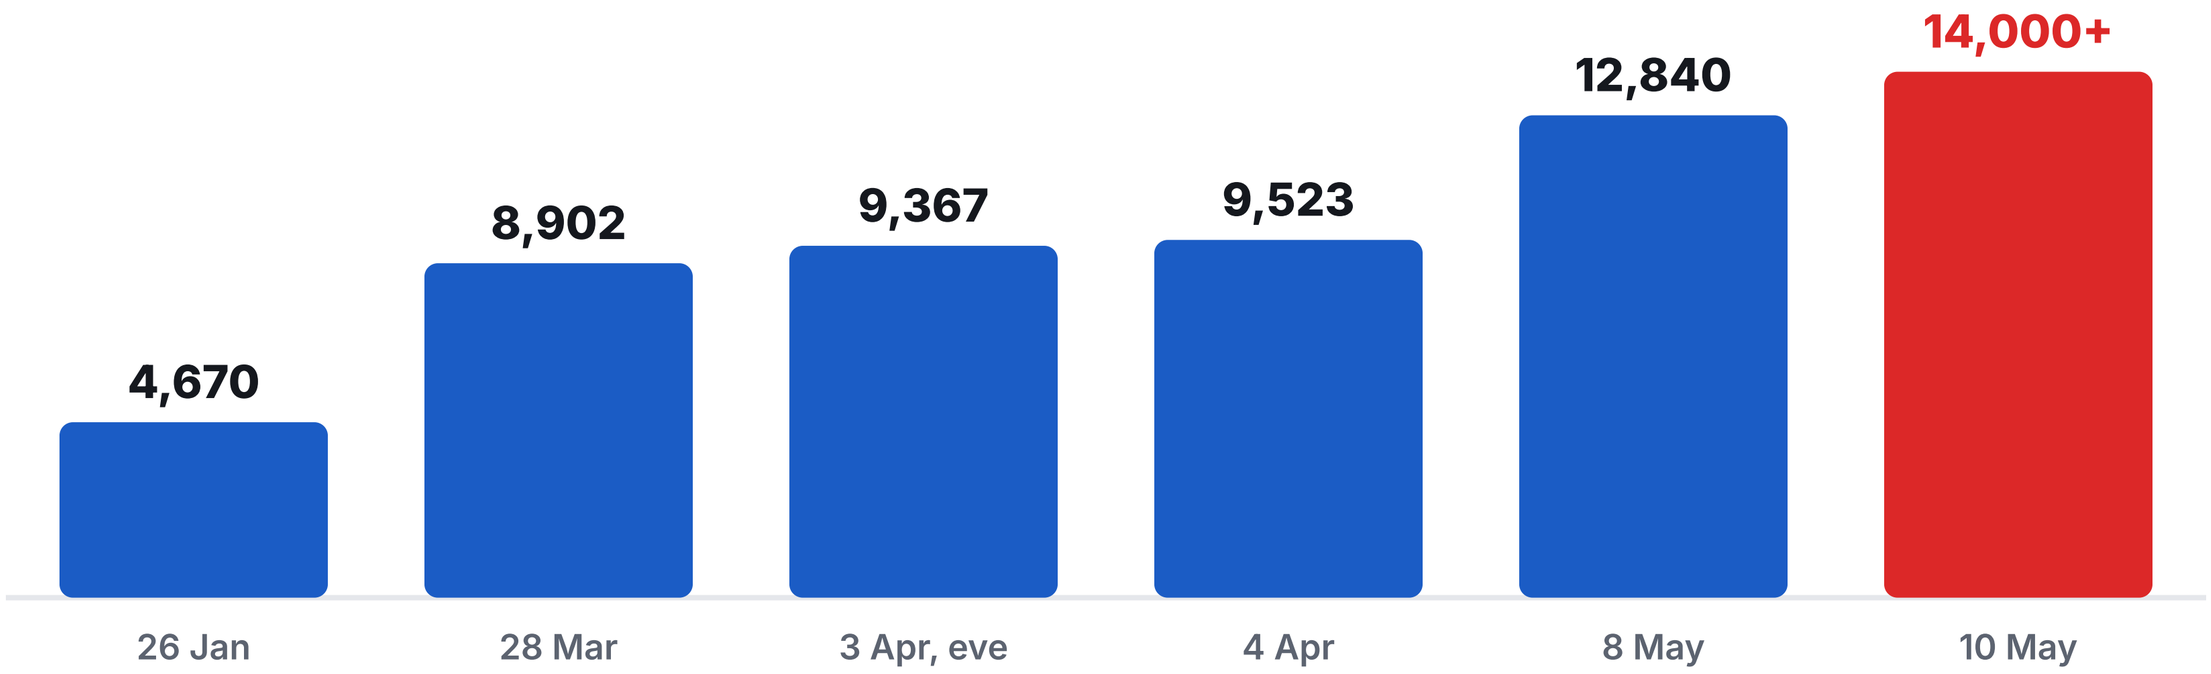

15 June
2013, the deadline

Refund
if the orders are cancelled

DATA M04 case, Exhibit 2 (shop terms, articles 4.3 and 4.4, adopted 13 May 2013) and Exhibit 3.

CASE · EXHIBIT 1 · NEWSLETTER SUBSCRIBERS, 2013

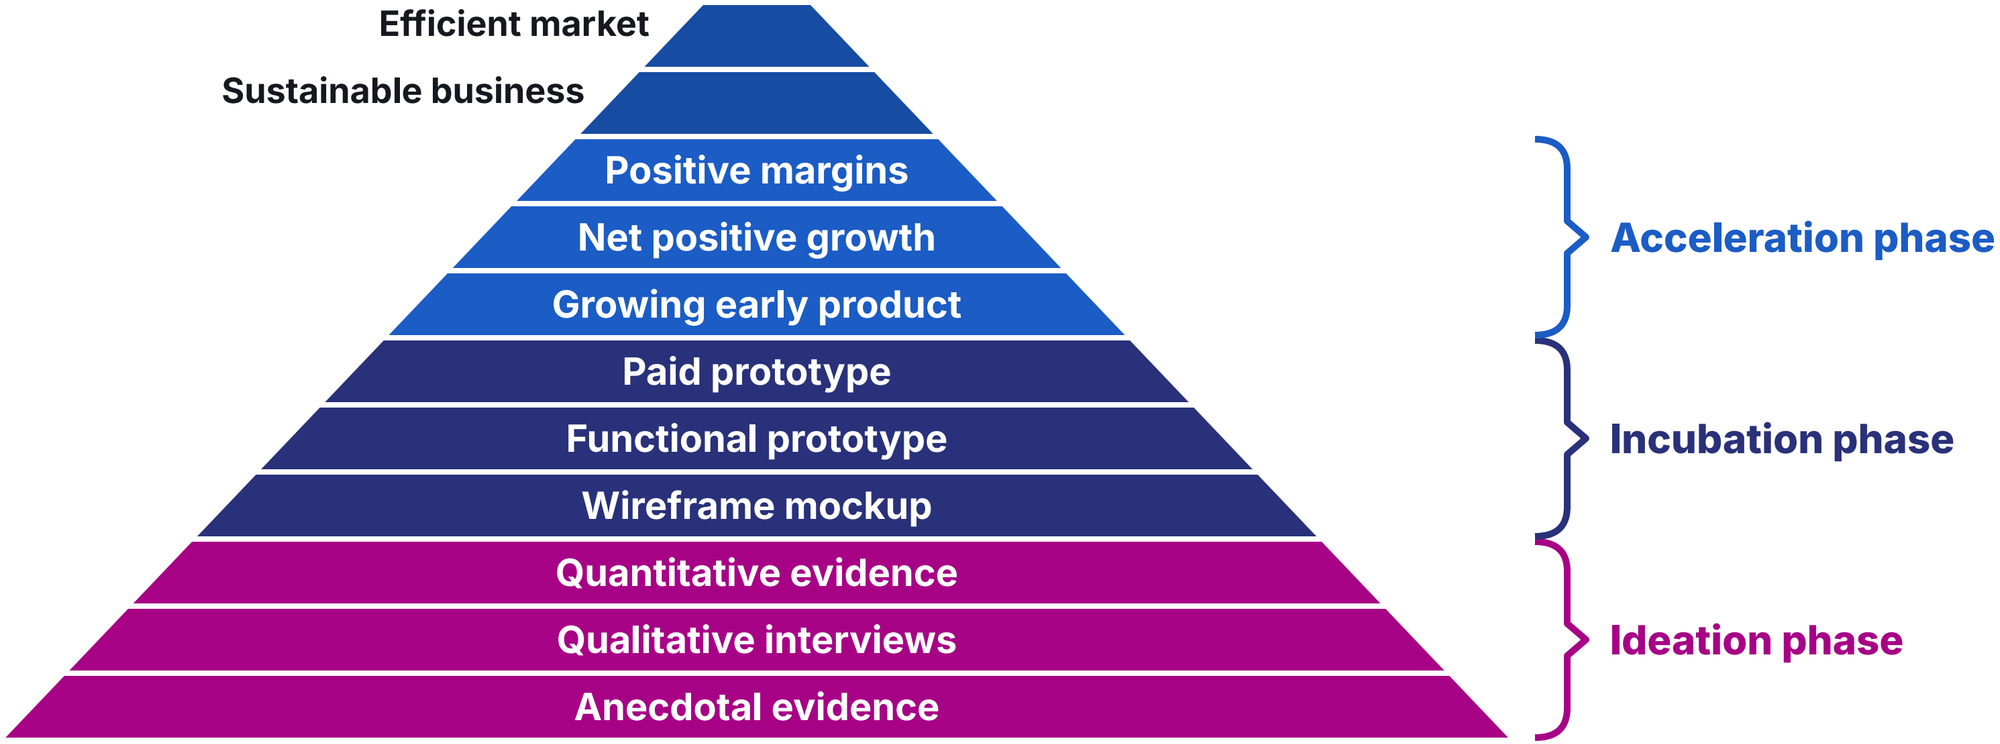

What do 14,000 sign-ups prove?

DATA M04 case, Exhibit 1: archived newsletter counter, Fairphone blog of 4 April 2013 (company figures for the evening of 3 April and for 4 April), Telecompaper of 10 May 2013 ("more than 14,000", drawn at 14,000). Bars to scale, 0 to 15,000.

CASE · DIAGNOSIS

Which step does each piece stand on?

BASTIAN Hierarchy of evidence in the lean startup, legacy slide 128. Filled on the board from the case.

Fairphone has a sales benchmark of 5,000 (five thousand) mobile phones, which must be sold before the 15th of June 2013.

Shop terms, article 4.3, adopted 13 May 2013. If Fairphone cancels on a miss, the buyer gets "a full refund of the money the Customer already has paid" (4.4)

DATA M04 case, Exhibit 2: Fairphone B.V., Customer Terms and Conditions, articles 4.3 and 4.4, adopted 13 May 2013.

CASE · BOARD PLAN

Is 5,000 by 15 June a good test of demand?

Evidence on 13 May and its step	What it proves and what it doesn't	The line as a test	5,000 buyers from where?
What, and which step?	Proves · doesn't prove	Count · threshold · date Pass · miss	Share of the list, then?

Vote 1 | Vote 2 | Prediction

CASE · VOTE 2 OF 2

Same question. Who moved, and why?

OPTION A

Open the pre-sale on this benchmark

OPTION B

Not yet

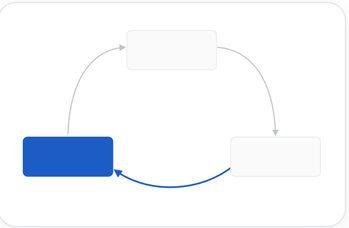

€325
the price, paid up front

5,000
phones sold

15 June
2013, the deadline

Refund
if the orders are cancelled

DATA M04 case, Exhibit 2 and Exhibit 3.

CASE · BRIDGE

Before your page exists, write your line

Fairphone wrote its line into its terms before the first buyer arrived.

We are right if	[X]% or more by [date], logged today
Then	pass: [next step] · fail: switch segment or problem

FRAMEWORK The last two rows of the test card, after Bland and Osterwalder (2019), legacy slide 169, as on slide 22.

See you next week!
