Workshop 02 — Idea Stress Test

> Module 02 · Finding Ideas · 90 minutes

The 90 Minutes

Time	Block	What happens
8m	**Crazy 8s Round 1**	8 ideas in 8 minutes on paper. No filtering.
8m	**Crazy 8s Round 2**	8 more with constraints: AI-powered, <€500 to build
15m	**DVF Scoring**	Rate each on Desirability, Viability, Feasibility (1-5)
25m	**Peer Attack**	Other teams try to KILL your top 3 ideas
20m	**Survivor Selection**	Narrow to #1 + write Mom Test interview script
14m	**Interview Planning**	Schedule 5 interviews for this week

Peer Attack pairing: teams pair A↔B for round one, rotate two seats left for round two — every team attacks two different teams and defends twice. Attacker's job: find the assumption that kills it. Defender's job: answer with evidence or concede.

Discussion Sparks

- "Which idea would you quit university for tomorrow?"
- "Could a smart intern with Google solve this? If yes, it's not a startup."
- "What's the laziest possible version of this that still delivers value?"

Must Produce — Today’s Deliverable

Top 1 validated idea + Mom Test interview script ready

Kill criteria: Nobody in the room would pay for your idea—not even hypothetically
