VENTURE LABS

Module 5

10x or Die

A joint initiative by

UNTERNEHMER TUM

WORKSHOP: The 90 Minutes

10m Data Review

Landing page results: what converted, what didn’t?

15m 10x Value Test

Score your solution on all 4 gates of the 10x Test

25m MVP Sketch

Draw the absolute minimum that delivers the 10x value

25m Build Plan

What can you build THIS WEEKEND? Stack, tools, timeline

15m Weekend Commit

Public commitment: deploy working prototype by Sunday

Discussion Sparks

“If you can’t state your 10x value in under 10 words, go back to the problem.”

“Claude + Cursor + Vercel = deployed product by Sunday. No excuses.”

“What’s the ONE thing your MVP does that makes people say ‘holy shit’?”

Today’s Deliverable

MUST PRODUCE:

10x scorecard + MVP spec + Weekend Build commitment

KILL CRITERIA:

You can’t pass Gate 1 of the 10x Test: state value in <10 words

This Week’s Deep Work

- Weekend Build Challenge: zero to deployed prototype in 48h
- Ship something real. Ugly is fine. Broken is not.
- Get 3 people to try it before Monday

Complete by next session — or you’re behind.
