Homework — Module 07: Rapid Validation

> This Week's Deep Work. Complete before Module 08 — or you're behind.

- [ ] Run your 'monkey first' test: test the riskiest assumption
- [ ] If GOING: prepare for monetization next week
- [ ] If PIVOTING: run 5 new interviews on the new direction
- [ ] If KILLING — the Restart Ramp: (1) Kill Ritual: one-page autopsy of what the evidence said, (2) 48h re-ideation from your existing M02–M05 artifacts (your interviews and pain map still contain problems people pay for), (3) commit to a concierge MVP — a service version you can sell with zero product — ready to offer in Module 08

A kill is a result, not a failure. Your verdict is provisional until the monkey-first test runs — it gets confirmed at the Module 08 check-in. Killed teams sell their concierge offer in Module 08 like everyone else: Demo Day with revenue is reachable from a week-8 restart.
