Module 10

Feature Graveyard

A joint initiative by

WORKSHOP: The 90 Minutes

10m Revenue Leaderboard

Numbers on the wall: revenue, pipeline, best objection

10m Backlog Dump

List EVERY feature idea and request in your backlog

20m 3-Question Filter

Asked for? 10x better? Build by hand? Kill the rest.

15m Feature Funeral

Publicly kill features. Celebrate the graveyard.

20m PMF Survey

Send the Sean Ellis survey to ALL real users right now

Discussion Sparks

“If <40% say ‘very disappointed’ without your product, you have work to do.”

“The best product decision is the feature you chose NOT to build.”

“Dark mode is not a feature. It’s procrastination with CSS.”

Today’s Deliverable

MUST PRODUCE:

Clean backlog + PMF score + improvement plan

KILL CRITERIA:

Your backlog has 20+ features and you can’t prioritize them

This Week’s Deep Work

- Execute PMF improvement loop based on survey results
- Push toward €2,000+ cumulative revenue
- Focus: fewer features, deeper value for existing users

Complete by next session — or you’re behind.
