Homework — Module 12: Fundraising & Demo Day

> This Week's Deep Work. Complete before Demo Day — or you're behind.

- [ ] Final pitch polish + run-throughs with outsiders
- [ ] Last revenue push before Demo Day
- [ ] Prepare your Demo Day materials and revenue proof (payment-dashboard screenshot or invoices — outside-your-social-graph revenue only)

After Demo Day — the part that matters most

The course ends. Your company doesn't have to. Before the final session closes:

- [ ] Team Go/Pivot/Kill on the COMPANY (not the pitch): continue, pause, or kill — argued from your semester's evidence, using the GPK framework
- [ ] If continuing: sign a 90-day plan (who works on what, hours per week, next revenue target) and settle the unsexy questions now — who owns the IP and the money you made, and when incorporation (UG/GmbH) becomes necessary
- [ ] Book the follow-up: TUM Venture Labs office hours / XPLORE / EXIST pre-check — leave the room with a calendar entry, not an intention

Bring to Demo Day

Evidence in your Student Toolkit — the deliverable: **Polished 5-minute pitch + verified revenue proof + your continuation decision**
